DATE: August 15, 2018

PURPOSE: The Chronological Age Calculator provides assistance to schools in determining a student's age for grade level placement.

MAJOR CHANGES: This Memorandum replaces MEM-6860 dated May 22, 2017. Attachments A and B have been updated for the current school year.

INSTRUCTION: The Grade Level Placement Chart (Attachment A) displays the age ranges for appropriate grade level placement.

The Chronological Age Calculator Tables (Attachment B) provide the chronological ages for students born between January 1995 and December 2015. To use the Chronological Age Calculator Tables, follow the instructions below:

- Find the table for the current calendar month as indicated by the heading "Use only during Month Year."
- Find the birth year of the student in the first column of each table.
- Find the birth month of the student as indicated by the column headings.
- The cell where the birth year row and birth month column meet indicates the age (year-month) of the student for the current month.

For example, to find the age of a student born in July 2012, in August 2018, use the table with the heading "Use only during August 2018." Find the birth year 2012 at either side of the table and read across the row to the "July" column. For birth year 2012, the "July" column shows the student is 6 years and 1 month old in August 2018.

RELATED RESOURCES: The Chronological Age Calculator is posted online at <http://agecalculator.lausd.net>.
